

TANGENT TOKEN WHITEPAPER

Tangent token is a futuristic currency created and developed by TangetInc. It is a utility token which powers it's own NFT Marketplace and rewards long term holders

Our aim is to create an NFT Marketplace which enables creators to mint and sell NFTs, while giving collectors and artlovers the best UI experience as they browse for NFTs. We are also creating a unique DEX with staking, liquidity farming and swapping of all BSC tokens.

NFT MARKETPLACE

An NFT marketplace designed to create an easy and safe environment for creators to showcase and sell their works, with great UI for collectors and artlovers to easily navigate and purchase

DECENTRALISED EXCHANGE

We aim to create a unique decentralized exchange with it's own unique token which will be airdropped to all **TGNT** holders. The DEX will support staking, liquidity farming and swapping of all BSC tokens

PASSIVE REWARDS

There will be a 10% tax on all transactions involving **TGNT**, with 4% being distributed to all **TGNT** holders

AUTOLIQUIDITY GENERATION

4% of the 10% tax on all transactions is directed towards providing automatic liquidity for all users.

QUARTERLY BURNS

2% of the 10% tax is dedicated to quarterly burns and donation to charities

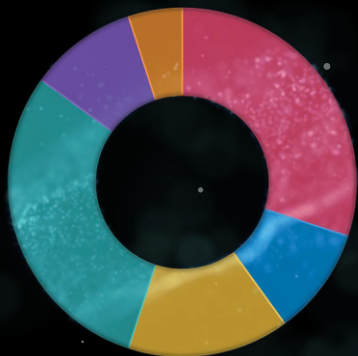

COMMUNITY DRIVEN

We are motivated by making crypto accessible to everyone, we have community rewards and airdrops planned to reward our long term holders.
